RIPHAH INTERNATIONAL UNIVERSITY

Artificial Intelligence

LAB #11

Name of Students	Sap ID	Program	Email Address
Irfa Arshad	63662	BSSE	63662@student.riphah.edu.pk

Submitted to: Ma’am Humna Waheed

Date of Submission

9/11/2026

Task 1:

10 points we learned in the lab:

1. Introduction to Artificial Intelligence
2. History of AI
3. Philosophy of AI
4. Relationship between AI, Machine Learning and Deep Learning
5. Introduction to Python
6. Positive features of Python
7. Comparison of Python with C/C++ and Java
8. Introduction to IDEs
9. Introduction to Google Colab
10. Writing and running Python code in Google Colab

Task 2:

. **INTERESTING THING ABOUT IDEs OR PYTHON**

1. Python is much easier to use compared to C++ and Java.

2. Python syntax is simple, readable and beginner friendly.

3. Google Colab runs in the browser, needs no installation and shows output right below each code cell.

Task 3:

C:\Users\user\OneDrive\Desktop\LAB 1 task.py

LAB 1 task.py

```
print("My name is Irfa Arshad")
print("My SAP ID is 63662")
print("I am 20 years old")
print("I did my Matric from Hira Public School")
print("I got 95% marks in 10th grade")
print("I did my FSC from Global clg")
print("I got 85% marks in FSC")
print("Now I am studying BS SE in Riphah International University")
print("MY CGPA is 3.55 ")
print("The 3 main reasons why I chose this field are:")
print("1. I have a great interest in coding.")
print("2.It is a fast-growing field with a wide scope and highly paying jobs.")
print("3. I want to build systems that solve real-world problems.")
```

```
